

Technology Committee Meeting Minutes  
Wednesday, June 17, 2009

The meeting began at 7:00 pm in the school library. Present were Cindy Blanchet, Tom Rieger, Steve Schuh, Chris Hugi, Joyce Sauer, John Chovanec, Christine Hoeffler, John Hildebrand and Meg Picciolo.

The minutes were approved with one correction.

**Summer Hardware Project:** The summer maintenance and reassignment is on schedule. Parish staff PCs are in and installed. Reassigned PCs are have been relocated. Old equipment needs to be disposed.

**Internet Tasks/Issues:** VPN is on hold until the Sonic Wall Filter issues are resolved. IE is freezing and locking up. ETA will work with RR to find out what the issue may be. We should be able to get a new package with faster speeds for the same or less cost.

**Envelope Printing:** Oce printers have limited capabilities for large volume printing and are not an option. Total cost per item for both installing a dedicated large volume envelope printer and using labels should be compared. An assessment will be done.

**Parish database solution advancement:** A meeting with Fr.Dave, Rich Harter, Karen Chaffee and the technology committee will be set.

**Food Service Solution:** The school requested a temporary food service solution for the upcoming year. John suggested a web-based program [www.orderlunches.com](http://www.orderlunches.com) . The committee preferred this type of solution as a temporary offering.

**Festival PC:** The festival will need a PC and printer set up in the Spanish room. ETA will set up.

As there was no further business the meeting adjourned at 8:30 pm. Our next regularly scheduled meeting is Wednesday, August 19 in the parish center conference room.

Respectfully submitted,

Meg Picciolo
